Subject: Microsoft Settlement

I am a 25-year old java developer for IBM, in RTP, North Carolina.

I feel the need say that the DoJ's settlement with microsoft does nothing - In fact, it provide for years of mis-inturpataion and renews litiagation with out stoping the criminal Micosoft practices. Please find a more strigent set of controls against such unlawfull acts.

In short, I think this proposed settlement is a bad idea.
